This year we will be operating differently than previous years. Billing for business/commercial will be accomplished through the landfill office. Credit cards or checks will be accepted. The cost to dispose of business electronics is 30¢ per pound and is due the day of the event. For those businesses that already have a charge account at the Landfill, the fee is due within 30 days of receipt of invoice. If a business wishes to establish a charge account please contact the landfill office at 218-828-4392 prior to the event.

During the event, the landfill attendant will weigh the vehicle then direct the business to the collection site. The electronics will be unloaded and you will be directed back to the landfill office to be reweighed at the scale. At this time businesses will be provided with a bill for payment.

Government agencies that are eligible for the State Contract rates will be handled differently. They will be billed directly by Dynamic Recycling. You will also need to stop at the landfill office to receive your weight of the material brought in. Dynamic Recycling will verify the equipment and invoice your company within two weeks of the drop-off, so no payment is required during the event.
