Crow Wing County continues to exceed the state minimum recycling rate of 35%. Overall, over 850 tons of material were recycled through the County Recycling Program at our drop sites, and almost 2,000 tons through the curbside recycling programs last year. “We are exceeding state standards, increasing recycling, and reducing the amount of material being placed in our landfill. Proactive efforts by the county, local businesses and local waste haulers were effective by capturing recyclable materials and keeping them out of the landfill.” stated Jessica Shea, Crow Wing County Operations Manager.
