CROW WING COUNTY COMMISSIONERS

District 1

Dewayne "Dewey" Tautges
5444 Sleepy Hollow Road
Fort Ripley, MN 56449
Phone: (218)829-0125
e-mail: Dewayne.Tautges@co.crow-wing.mn.us

District 2

Paul M. Thiede
33205 South Upper Hay Drive
Pequot Lakes, MN 56472
Phone: (218)568-5774
e-mail: Paul.Thiede@co.crow-wing.mn.us

District 3

Rachel Reabe Nystrom, Chairman
13064 Timberlane Drive
Baxter, MN 56425
Phone: (218)829-1721
e-mail: Rachel.Nystrom@co.crow-wing.mn.us

District 4

Rosemary Franzen, Vice Chair
14732 Inglewood Drive
Baxter, MN 56425
Phone: (218)829-8021
e-mail: Rosemary.Franzen@co.crow-wing.mn.us

District 5

Doug Houge
P.O. Box 367
Ironton, MN 56455
Phone: (218) 546-2794
e-mail: Doug.Houge@co.crow-wing.mn.us

2008 Budget Executive Summary

Crow Wing County's fiscal year 2008 budget reflects the Board's desire for a fiscally responsible budget and levy with little growth in spending. The financial stability of the County's operations, as well as previously board approved initiatives and regulations were also taken into consideration.

The 2008 budget is \$65,353,562 with a levy of \$34,165,859 or 3.0% increase from 2007.

MAJOR EXPENDITURE AREAS AND FINANCIAL STABILITY INITIATIVES

Salaries and Fringe Budget Amendments

This budget document reflects the amendments to the 2008 board adopted budget in the following areas:

- Departmental allocation of \$200,000 for salaries and fringe related to placement on the new pay matrix per contract settlements.
- Departmental reallocation of health, dental, and long-term disability Costs for the 2008 plan changes.

The 2008 original and amended budgets are listed in the last two columns of the departmental line item detail.

Salaries and Wages

Government entities are service providers with high reliance on staffing resources. The 2008 budget includes a 3% board approved wage adjustment, in addition step progression for those eligible. As four new contracts were approved for 2008 employees wages were slotted on a new pay matrix based on a market and pay equity study done in 2007. The County Board has committed to an "at-market" philosophy in implementing the study findings.

2008 Budget Executive Summary (Continued)

Salaries and Wages - Continued

Total 2008 salaries and wages increased \$1,293,439 over 2007 or 5.7%. The 2008 budget also reflects a rate increase of .25% in Coordinated PERA and 1.2% in Police and Fire PERA. PERA increased in total by \$184,516 over 2007.

Health Care

Outside of salary, the largest benefit cost to the County is health insurance premiums. The restructuring of the County's health plan rolled out dental insurance for active employees. Total 2008 health and dental insurance increased \$479,081 over 2007.

Crow Wing County completed an actuarial study of Other Post Employment Benefits (OPEB) to meet the reporting requirement under the Governmental Accounting Standards Board (GASB) 45. OPEB is related to costing out the future liability of retiree health insurance. As of January 1, 2007 the Actuarial Accrued Liability is \$35,478,061.

The 2008 budget includes pay-as-you-go retiree costs of \$771,836 for 2008 premiums; this is a \$291,936 decrease when compared to 2007. This decrease is due to a health plan restructure and should have favorable results to the overall liability of OPEB. The exact change to the OPEB liability will not be known until the January 1, 2009 actuarial study is done.

No pre-funding of the OPEB liability was addressed in the 2008 budget. In the 2009 budget Crow Wing County should consider investing funds into a trust for OPEB. This will help maximize investment rate of return and minimize negative balance sheet and credit rating impacts related to this liability.

2008 Budget Executive Summary (Continued)

Capital/Finance

New this year, Crow Wing County has started putting together a Capital Improvement Plan (CIP) that will capture all county capital outlays and infrastructure. The CIP will be published in next years budget process.

The County's Building Fund is starting to replenish itself after the large construction related draws for the Facilities Master Planning Project. The main revenue sources for the Building Fund are tax forfeited settlement dollars and building lease revenue. Currently, no levy dollars are being allocated to this fund. The anticipated expenditures for 2008 are \$377,315 that will be spent on smaller building improvement projects.

To avoid bonding for future capital projects, steady plodding is needed to start building up a reserve to handle a large capital outlay. This savings process was able to get addressed in the 2008 budget. It is anticipated that the fund balance for the Building Fund will increase by \$1,188,135 in 2008.

Over the past nine years Crow Wing County has addressed most of its capital needs for computer hardware, software, emergency vehicles, and highway machinery and equipment through the bonding for capital notes. The last of the capital notes issuances was in the spring of 2006 for \$3,210,000. The debt issuance covered capital needs in mentioned areas for the years 2006-2008.

2008 Budget Executive Summary (Continued)

Capital/Finance - continued

Spring 2009, Crow Wing County needs to consider re-issuing capital notes for 2009-2011 to address this reoccurring capital need. This is important because the 2009 budget will have a debt service levy related to the 2006 capital notes issuance in the amount of \$1,235,443.

In order to transition out of issuing debt, a Capital Improvement Project Fund needs to be established to meet the ongoing capital needs. Levy dollars would get allocated to that fund directly starting in 2010. A fund balance reduction in the General Fund of approximately \$1,000,000 would be needed to transition out of revolving debt to avoid doubling up on levy in 2009. Additionally, the tax collections in 2010 would not be available in the Capital Improvement Project Fund until July and December.

Therefore, an additional \$1,000,000 fund balance reduction would be needed from the General Fund in order to allow the Capital Project Fund an opportunity to establish itself.

The current level of fund balance in the General Fund is at an appropriate level and would have difficulty handling the mentioned reductions without the potential of running into cash flow issues. The General Fund is also currently supporting the Road and Bridge Fund at this time, as fund balance levels in the Road and Bridge Fund are well below the County's goal levels.

2008 Budget Executive Summary (Continued)

Debt

The current debt load on the county is somewhat high at 17.8% of our 2008 levy.

CONCLUSIONS

As you can see from the raw size and complexity of this document, an enormous amount of time and effort is needed to provide the attention to detail necessary to produce and accurately reflect the policy direction of the County Board of Commissioners with respect to finance.

The approved levy increase of \$995,977 or 3.00% will allow Crow Wing County to continue to provide services without any major reductions in current levels. This levy takes into consideration the management of fund balances and the implementation of the market and pay equity study.

Budget and Levy Schedule

- Schedule of events in approval of County's Payable 2008 Tax Levy
 - September 11, 2007 County Board certified proposed levy amount
 - December 6, 2007 TNT public hearing on proposed budget and levy
 - December 11, 2007 County Board certified final budget and levy amounts

How Growth Affects Taxes

Some Formulas & Explanations

Tax Formulas

- Budget
 - Less: Non-Property Tax Revenues
 - = Levy
- County Levy \div Net Tax Capacity = County Tax Rate
- County Tax Rate
 - \times Individual's Valuation
 - = Individual's County Tax

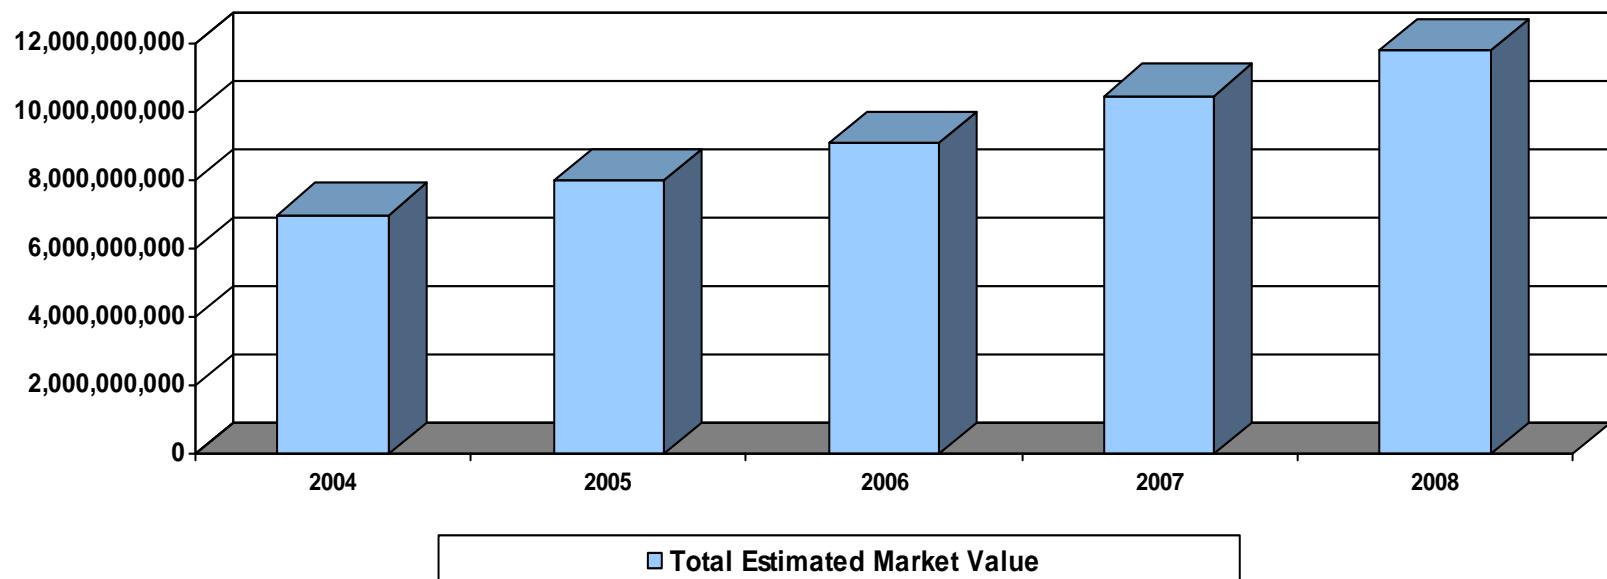

How to Lower Taxes

When You Know the Formula

- Lower the Budget.
- Lower the Levy.
- Increase Non-Property Tax Revenues.
- County Valuation Growth
 - New Construction and Inflation.
 - Lowers the County Tax Rate.

Crow Wing County Estimated Market Value and New Construction

Pay Year	Total Estimated Market Value (MV)	% Inc.	Annual New Construction Est MV	New Const. As a % of Est MV Growth
2004	6,990,447,900	16.5%	193,779,440	19.5%
2005	7,973,404,600	14.1%	192,942,100	19.6%
2006	9,074,443,000	13.8%	228,656,500	20.8%
2007	10,464,101,300	15.3%	251,575,800	18.1%
2008	11,783,979,800	12.6%	225,460,000	17.1%

Recent County Growth

- We estimate that the 2008 county tax base (Net Tax Capacity) will be up approximately 14.8% or \$14,456,364 (inflation + new construction) from payable 2007.

What does that mean to the County Tax Rate?

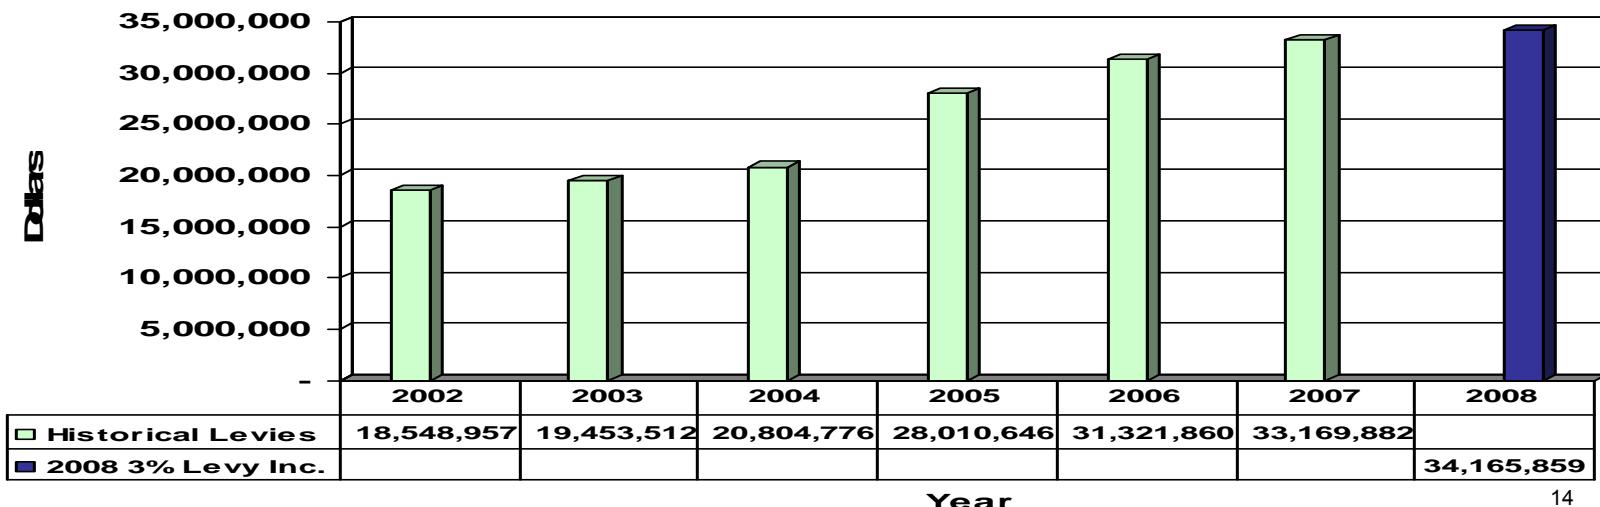

- With the 3.0% increase in the levy, the County Tax Rate will decrease 3.502% when compared with last year:

2007 Tax Rate 34.001%
2008 Tax Rate 30.499%

Explanation of Levy Changes

- Category: Financial Stability in Highway Fund
- Change: + \$500,000
- Use of funds: Highway Fund Balance
- Reason for levy increase:
 - The 2007 Highway budget has a budgeted deficit of \$500,000. The Highway Fund Balance is currently negative and has been historically under-funded. A levy reallocation is needed to continue services at current levels.

Explanation of Levy Changes

- Category: Market Study / Pay Equity / Job Reclassifications
- Change: + \$200,000
- Use of funds: Personnel Costs
- Reason for levy increase:
 - In 2007 Crow Wing County entered into a Market and Pay Equity Study.
 - The County Board has committed to an at-market philosophy in implementing the study findings.

Explanation of Levy Changes

- Category: Continued services at current levels.
- Change: + \$295,977
- Use of funds: Operational Increases mostly fixed.
Reason for levy increase:
 - Personnel costs expected to increase by \$1,904,828 in 2008 or ~6.6%.
 - Utility costs are estimated to be \$93,450 higher or 13.6% in 2008.
 - Kitchigami Regional Library's statutory required levy will increase \$34,880 or 6.8%.
- The increases in non-levy revenues of \$1,403,948 or 4.56%, significantly helped meet our levy goals.

CROW WING COUNTY 2008 BUDGET NARRATIVE

DEPARTMENT NAME: Court Administration

DEPARTMENT DESCRIPTION: Responsible for management of the trial court in Crow Wing County.

MAJOR ACCOMPLISHMENTS & CHALLENGES IN 2007:

1. Completion of transition to Judicial Center.
2. Implementation of MNCIS
3. Completion of 1st year of Crow Wing County Drug Court

MAJOR OBJECTIVES TO BE ACCOMPLISHED IN 2008:

1. Preparation for transitioning to new court administrator
2. Possible integration of fifth District Court Judge in Crow Wing County
3. Planning for DUI Court

BUDGET HIGHLIGHTS, INCLUDING ANY PROPOSED EXPANSIONS IN 2008:

For the benefit of the commissioners new to the budget process, courts in Crow Wing County have been state funded since July of 2000, with the exception of three items that remained the responsibility of the local County, that being court appointed counsel in certain limited situations, certain psychological/psychiatric evaluations and other miscellaneous items.

The law library remains a county responsibility, but is currently funded by law library fees assessed in both civil and criminal actions. Operating expenses slightly exceed revenues, but currently there are funds from previous fiscal years available to cover this shortage with the necessity of a levy.

The Drug Court budget request is below the approved 2007 budget.

In response to an inquiry by Mike Carlson, Crow Wing County Auditor's Office, I would note that, yes, the line item for court appointed attorney fees is an increase over the current year's budget by \$19,000.00. Based on current costs, this figure may exceed the \$19,000.00 in 2008. However, revenues are expected to increase by an estimated \$15,000.00 and medical fees are showing a decrease in 2007 over 2006 spending.

CROW WING COUNTY 2008 BUDGET NARRATIVE

DEPARTMENT NAME: Administration

DEPARTMENT DESCRIPTION:

The County Administrator is directly accountable to the County Board under the provisions of Minnesota Statute 375A.06. With the approval of the County Board, the Administrator is permitted to coordinate the various activities of the county and unify management of its affairs. If deemed appropriate by the County Board, the Administrator may act as Department Head of any department. Currently, the County Administrator is the Interim Parks Director and the Director of Land Services. Other responsibilities include budget preparation and management, purchasing, and staff management.

MAJOR ACCOMPLISHMENTS & CHALLENGES IN 2007:

During 2007 the County Administrator worked with the County Auditor to transition the Clerical Support to the County Board into our Department. Following the approval of the County Board, we have worked to develop a team approach of shared responsibilities with our two support staff. As a part of our service in this area, we have successfully placed Board agendas and reports onto our county Web site in advance of each meeting along with posting decisions of the county Board for easy accessibility of information. We are also digitally recording the public meetings of the County Board. Finally, we support another Tuesday meeting of the County Board schedule known as the Committee of the Whole. These informational meetings have added a significant component to our overall communications with the County Commissioners and the public.

During the year, the County Board agreed to move the Parks Department into a division of the Land Department. Our year as Interim Director provided an invaluable opportunity to learn about this operation while providing oversight of its staff and support for the Parks Advisory Commission and Trails Sub-Committee. One of our main successes was to develop a trail permitting process for a mixture of trail uses.

In addition, the County Administrator was authorized by the County Board to act in the capacity of Land Services Director. This initiative focused on correlating the work of several land related Departments into a functional division within our organization. An interim report was presented to the County Board at their November 20th Committee of the Whole. A final recommendation will be the subject of a report early in 2008. Those departments involved include the following: Land, Planning & Zoning, Parks, Sanitary Management, Solid Waste, G.I.S., Recorder, Survey, Extension along with Soil & Water Conservation.

Finally, the building project is completed, ahead of schedule and under budget. At one point, the County Administrator was named the Interim Department Head of Facilities with oversight of the campus of buildings. This responsibility was moved to a position transferred from Public Works now exercising day-to-day oversight of this \$58 million project.

MAJOR OBJECTIVES TO BE ACCOMPLISHED IN 2008:

The main theme of 2008 will be continued work in the area of assessing and recommending organizational changes to Crow Wing County. This is in keeping with the theme emerging with the experiment of developing Land Services as a multi-faceted functional unit of our operation. When this recommendation was originally presented to the County Board, it was included in a draft of a new county-wide organization. The focus is based on the principles of enhancing correlation and communication with the objective of improving our service to the residents of Crow Wing County. In 2008, the County Board will be presented with a recommendation after discussion and consultation with all Department Heads and our staff. Although new positions may be recommended, they will be considered within the realm of existing fiscal resources.

As a part of this initiative, we will also consider recommendation to the County Board pertaining to an organizational Strategic Plan for Crow Wing County. This would involve full participation of our staff, Department Heads and County Commissioners. Anticipated outcomes would include a County Mission Statement, Goals and Objectives along with projected timelines for each area of the overall strategy.

BUDGET HIGHLIGHTS, INCLUDING ANY PROPOSED EXPANSIONS IN 2008:

We have completed the transition of Human Resources from County Administration along with assuming the duties of clerical support to the County Board from the Auditor's Office. No further changes are anticipated at this time.

CROW WING COUNTY 2008 BUDGET NARRATIVE

DEPARTMENT NAME: County Auditor

DEPARTMENT DESCRIPTION:

The County Auditor serves as the Chief Financial Officer and Chief Elections Official for the county. Our office is responsible for all financial functions of the county, property tax calculations and delinquent tax collections, property records management, licensing for business licenses and elections administration.

MAJOR ACCOMPLISHMENTS & CHALLENGES IN 2007:

Implemented a Capital Improvement Plan for the county, and continued coordination of the budget process for the county and began the actuary process for OPEB liability.

The restructure of department resulted in creation of Taxpayer Services division to enhance customer service efficiencies and effectiveness.

Implemented additional business license process with tattoo license procedures ordinance.

Working toward creation and codification of county policies to meet state/federal guidelines.

MAJOR OBJECTIVES TO BE ACCOMPLISHED IN 2008:

Review and analysis of OPEB actuarial study

Continuation toward implementation of new platform for IFS system

Continue automation of systems and services, ie automated time and attendance system

Enhancements and expansion of financial plan including CIP plan

Expansion of electronic submittal of real estate CRVs

Implementation of web-based tax records look-up

BUDGET HIGHLIGHTS, INCLUDING ANY PROPOSED EXPANSIONS IN 2008:

Expenses have been held to budget guidelines, however there are many unknowns at the time of budget submittal, including the county OPEB study, the pay equity compliance study currently being done, health insurance renewal information.

CROW WING COUNTY 2008 BUDGET NARRATIVE

DEPARTMENT NAME: Treasurer

DEPARTMENT DESCRIPTION:

We mail tax statements and collect current year taxes. We serve as the vital records registrar. This includes birth, death and marriage records, passport applications, notary and ministerial registrations. We track collateral on county investments and balance the county checking account and deposit account. We also make daily deposits for all the county departments.

MAJOR ACCOMPLISHMENTS & CHALLENGES IN 2007:

We met our deadlines for mailing statements and collections despite the office being moved and resettled and a major increase in numbers of people applying for passports and birth certificates.

MAJOR OBJECTIVES TO BE ACCOMPLISHED IN 2008:

Maintain good service with increasing numbers of users. Get property tax information on-line for public use.

BUDGET HIGHLIGHTS, INCLUDING ANY PROPOSED EXPANSIONS IN 2008:

I have always maintained a slim budget. A high percentage of the budget is personnel and benefits. These are union positions with established increases in wage. Current guidelines leave no room for expansion. We may lose the ability to take passport applications and if that happens we will lose a large piece of revenue. Under review is a new method of processing checks. That would require an outlay of funds for equipment and ongoing outlay costs for software and per check costs. This may reduce the need for some of the temporary wages.

CROW WING COUNTY 2008 BUDGET NARRATIVE

DEPARTMENT NAME: ASSESSOR

DEPARTMENT DESCRIPTION:

Establish Estimated Market Values and Classification for all properties in Crow Wing County according to Ad Valorem procedures as set forth by Minnesota Law. Crow Wing County has approximately 92,934 total parcels and new parcels are being added each year through splits and plats. We are required to appraise all new construction and view/review all properties at least once every five years as of January 2nd of each year. Forty eight local boards of appeal and equalization, one county board of appeal and equalization and one state board of appeal and equalization are held during the months of April, May and June. We work with the state regional representative throughout the year to ensure that we are meeting the assessment standards set by Minnesota statutes. Property values are based upon history of sales and classification of properties is based upon actual use or the highest and best use. Homestead classification is granted and processed in accordance to Minnesota law. Sales (certificate of real estate value) are reviewed and processed by our office to establish the estimated market values and determine if the assessment needs to be increased, be decreased or remain the same. New plats, splits, and consolidations require us to create new estimated market values. We provide various amount of information for the public, realtors, attorneys, closing agents, fee appraisers, abstract companies, developers, county agencies and state agencies. We also provide estimated market values for T.I.F. and JOBZ projects. We defend estimated market values and classification in tax court. Our staff consists of nineteen employees that handles the assessment duties and requirements of our office.

MAJOR ACCOMPLISHMENTS & CHALLENGES IN 2007:

Completed assessment work in coordination with major office remodeling including a relocation to the third floor.
Strived to meet the required assessment deadlines.

Preliminary research & development for CAMA (Computer Aided Mass Appraisal) technology.

Training of new staff.

We have entered CAMA land detail for ten districts and we are continuing to work on more districts as time permits.

MAJOR OBJECTIVES TO BE ACCOMPLISHED IN 2008:

Continue research and development of CAMA to include transfer of data and valuation from paper field cards to CAMA (Computer Aided Mass Appraisal).

Complete 2008 assessment within the required deadlines.

BUDGET HIGHLIGHTS, INCLUDING ANY PROPOSED EXPANSIONS IN 2008:

Revenue is anticipated to remain stable.

I will be requesting to replace an office support employee sometime in 2008 due to a resignation.

Due to an increase of the mileage rate as established by the Federal Government the cost of doing business will increase for our office.

CROW WING COUNTY 2008 BUDGET NARRATIVE

DEPARTMENT NAME: Purchasing Department

DEPARTMENT DESCRIPTION:

The Purchasing Department is responsible for overseeing purchasing activities of the County in accordance with Minnesota State Statutes and County Regulations. Responsibilities of the Purchasing Department include the purchasing or contracting for all supplies, materials, equipment and contractual services required by any County department; equipment repair, mail, shipping & receiving and to transfer equipment to or between County departments, and/or handle sales of surplus equipment, supplies and materials

MAJOR ACCOMPLISHMENTS & CHALLENGES IN 2007:

The Purchasing Departments major accomplishments in 2007 are the continuation of Departmental relocations and the opening of the new Jail. There are always challenges when purchasing furnishings for the new buildings and coordinating office designs and moves for relocating departments. It is a rewarding experience to see the offices once everything is finalized.

MAJOR OBJECTIVES TO BE ACCOMPLISHED IN 2008:

To review and re-write the current Purchasing Policy and Procedures.

To continue to obtain the best possible value for the taxpayer when purchasing goods and services while adhering to all applicable laws and regulations.

DEPARTMENT NAME: Information Systems

DEPARTMENT DESCRIPTION:

Provide technical leadership and guidance to the County Board and departments in their efforts toward safe and secure digital access, communications and service delivery to Crow Wing County residents and internet users and visitors.

MAJOR ACCOMPLISHMENTS & CHALLENGES IN 2007:

Personal Digital Assistant rollouts:

Crow Wing County staff utilize a mix of products that provide email retrieval, calendar and scheduling synchronization, cell phone and internet access. Windows Pocket PC and Blackberry are the 2 devices in use that allow cell phone and wireless data access. Dell Axim devices are also used to synchronize information, but do not have cell phone and wireless data access. User remarks have been primarily positive. In fact, some say they'd be "lost without it". One negative comment is that the battery life on the Pocket PC is too short. Users of the devices that provide wireless access include Commissioners, Department Heads, Elected Officials and staff. An associated cell plan is required to support the wireless device. Current cell provider vendors are Sprint and Unicell

IS Staff training opportunities:

Support staff were able to take advantage of instructor led training in two of our main areas of support; Microsoft desktop, server and operating systems and the Cisco IP telephone system. One staff member attended the week long Microsoft TechED conference in Orlando, Florida. The composition of this national conference allows for management, technical, procedural and support training at all levels. One on one contact with Microsoft developers and upper management (decision makers) is a major advantage of attendance. Also available is hands on access to new tools, techniques and training. An interesting observation concerning training resources is that this conference, when compared to a 3 or 5 day training session in the Minneapolis/St. Paul area, provides far more "bang" for the county's training buck.

Three of our support staff attended free one day sessions that introduced them to the new Windows operating system Vista. Others took part in a three day class that addressed rolling out the new operating system. Staff also took advantage of a five day telephone system management course as well as the annual three day Government Technology Symposium held in St. Paul. In addition, staff took advantage of numerous webcasts, free online offerings and computer disk based training.

County staff training:

IS staff reinitiated county staff training in the newly remodeled county training room. Class offerings include GroupWise, Windows desktop operating system use and the Microsoft Office suite of products; Word, Excel, Access and PowerPoint. New additions to the schedule include Microsoft's Publisher application and our new GIS interface program Webfusion. GIS staff conducts the Webfusion training.

Initiated pilot wireless project - 3rd floor Historic Courthouse:

Network equipment was installed and configured to allow board members and select staff to access the county local area network and the internet using wireless technology. Overall, responses were positive. There were a few bugs to work out (thanks again to the commissioners for being testers) but we feel it is a workable situation. The system remains operational and will be enhanced and changed as users request. Note: At this time, 3 of 5 commissioners have chosen to take part in this project.

Rollout of laptops to Commissioners:

Five Dell laptops were purchased for the commissioners. IS staff conducted training on the laptop use and overall access requirements for accessing the county network outside the confines of the county campus. Response to this project was mixed and fell short of our expectations. To this date, only 3 of 5 commissioners use the devices. Hurdles include sub standard high speed internet access from residences and lack of belief regarding the laptop necessity and expense. We remain convinced that the device provides an important tool that allows the commissioners to access information as needed and stay up to date on county issues and staff correspondence and data. We hope this technology will be fully accepted and implemented.

Updated network applications including helpdesk, web filtering, telephone system:

The telephone system was updated to fully support all county staff. The legacy PBX system has been disconnected and is no longer in use.

Access to the internet using county laptops is now subject to the same filtering policy as devices physically connected on the county campus. This application allows us to protect the device and the user from unwanted and malicious access. It also affords us one more level of assurance that when the device is reconnected to the county network, it will be as clean as the local devices.

Our help desk software has been updated and now includes work order generation for the Maintenance/Facilities and GIS departments. In addition, users can now submit help desk work orders by using email and can provide additional information via attachments.

Security:

We monitor access, attempted and successful, to our network through the use of two network attached devices. We feel a secure stance is being maintained. However, unless we stay current with new developments in the hardware and software arenas, there is no guarantee we can maintain that level of safety. The bad guys are continually changing their methods which necessitates our associated change and reaction. Too much business comes into and goes out of the county network to allow us to fall behind in this effort. While we can never be assured of total safety, we are doing our best to maintain different levels of risk management and security. Our arsenal includes hardware, software and education. While a well conceived security plan can be successful, it can also be annoying. Multiple passwords and continued change of their makeup is a basic tenant of security. We know our plan is working when we hear users comment on the password change frequency – that usually means they are performing that task. On the flip side, NOT hearing about problems with devices, software and potential viruses usually indicates the plan is succeeding. Security should be transparent; it is one area of technology that can be measured by an absence instead of a presence.

Increased network storage - implemented data replication:

We've increased our network storage pool and added the capability to maintain on time data replication. This allows us the capability to restore lost data in a short period of time.

Installed new AS400 - mid range computer system:

We updated the county mid range computer system – AS400 now called the iSeries. This system supports our tax and assessment programs, Recorder's office tract index, Highway Department cost accounting system, county GL/AR/AP system and other applications. The new system will support the Assessor's computer aided appraisal system and associated data.

Assisted Historical Society with technology advancements:

We installed new cabling (thanks to Facilities/Maintenance) for the Historical Society network devices. We helped update their software and assisted in the purchase of new hardware and software. We've provided them with used, but still functional, county equipment for their use. We are beginning to support their web site creation and maintenance efforts.

Began evaluation of secure remote access - pandemic preparedness:

We have configured and are in the initial stages of testing new equipment that will allow county staff access to the local network. This type of access is different from what we've used in the past. With the proper credentials (user id and password), staff will be able to access county data and services utilizing any computer from any location. We refer to these devices as "unmanaged". This functionality will enable staff to respond to any emergency requirement that requires network access from an undetermined location. This process does NOT require our staff to install software on the machine. Necessary software is downloaded to the device automatically. Testing has indicated that the required device functionality is there. We now need to ensure user requirements will be met.

Began "imaging" personal computers:

In an effort to become more efficient and effective, IS staff is now "imaging" new computers. This process creates a template from one PC that is applied to other new PCs. Setup time has been dramatically decreased. These templates are saved and can be used in the future should any PC require repeated configuration. Our current purchasing/maintenance policy to standardize on one computer model, aides in this effort.

Continue to assist Sheriff with rollout of new records management system, jail management system, computer aided dispatch system and over 75 laptops in the squads

As part of the new county wide law enforcement package rollout, we are continuing to support the county jail staff in their effort to become more effective and efficient. We have installed a wireless pilot project for their evaluation. We have hired a technical consultant to assist our efforts to troubleshoot and qualify the new records management system. We are working closely with the consultant and the vendor to ensure delivery of a quality product. This effort has required more IS staff support time than originally estimated and has caused us to shift other support activities.

Completed network equipment upgrade

We have completed the rollout of new network equipment. This new equipment has increased our ability to allow multiple interactive video sessions, provides us with a means to separate network traffic for security and performance requirements and provides a "pipe" through which our network data and telephone traffic can flow. Internet access speeds have been increased.

Vendor assisted security training for department heads and supervisors - security assessment of network

We had a vendor come in and conduct security awareness training for our county department heads, managers and commissioners. Overall review of the session was favorable. The vendor also did an assessment on the security stance of our servers. That review was favorable. Staff will use this experience to create custom security awareness training for county staff and apply security restrictions and enhancements on all servers purchased in the future.

GIS data access system

The hardware has been purchased and is being installed and configured that will support our new internet accessible GIS system Webfusion. This service will be available to the public in 2008.

MAJOR OBJECTIVES TO BE ACCOMPLISHED IN 2008:

Microsoft Vista and Office 2007 rollout

We will begin rolling out the new desktop operating system and updated Microsoft suite of products. Associated training sessions will be available for staff to attend.

Expand wireless project - without vendor assistance

We will continue to expand our wireless project. We will progress at a slower rate and NOT require any additional vendor assistance. This commitment will reduce any 2008 budget requirements in this area.

Assist GIS department with public presence

We will continue to assist the GIS department with the internet based GIS application rollout.

Evaluate new telephone infrastructure - hardware/software in 2009

We will begin evaluating a new hardware and software plan to support our telephone system. Our current system was installed in 2004 and will soon require upgrade and replacement. At the same time, we will begin identifying requirements for a new telephone service plan. We will work with the Purchasing Department and the Sheriff's Office in this effort. Our goal is to achieve a level of fault tolerance/ high availability with a new system delivery plan utilizing our fiber backbone.

Evaluate migration to Microsoft network systems

We will begin laying plans to evaluate a conversion from our present network operating system to a Microsoft network operating system. We will attempt to do this without vendor assistance, which will enable us to NOT impact the 2008 funding plan we have in effect. We expect this project to span 2008 and 2009. No recommendations will be made before the fall of 2009.

Continue to assist Sheriff with 24/7/365 technical support

We will continue to assist the Sheriff's Office with the new software rollout and will be available for 24/7/365 support.

Implement secure remote access for pandemic requirements

We will conclude our installation of equipment to allow secure, unmanaged access to the county data network.

Investigate "network admission control" solutions

We will begin investigation into the implementation of "network access control". This functionality will allow us to inspect the status of every device that attempts to connect to the county network. The device can be scanned for the presence of current updates and virus removal software. If that examination meets the necessary profile requirements, the device is allowed

access – if not, the device is restricted until the desired level is achieved. This process is one more layer in our security stance.

Continue/expand county staff training offerings

We will continue to provide training to all county staff in the proper use of county provided hardware and software. We hope to work with the Human Resources department to develop a training plan for all new county hires and a refresher training plan for all current county staff. We will offer a new class outlining the security efforts we make. The class will explain the reasoning behind the county's security requirements, such as passwords and the need to change, and give the student a better understanding of the overall county security effort.

Bring county web site "in house"

We will relocate out county INTERNET web site files to the county network. This will enable us to provide additional functionality to our web presence.

Imaging system storage devices

We will begin evaluation of our current imaging system storage devices. Vendor support for the existing hardware will soon expire. New, improved and larger storage systems are available. We will work with other departments and funding sources to minimize the impact on county budget.

Assist Highway Department

Beginning 2008, we will assist the Highway Department with their technology needs. We hope to bring their technology investment up to our current county level and assist them with future research, development, implementation and purchases to ensure consistency and standardization.

Paging system

Through multiple department funding participation, we have purchased a new "paging system". We will install and configure this system for use by all county departments.

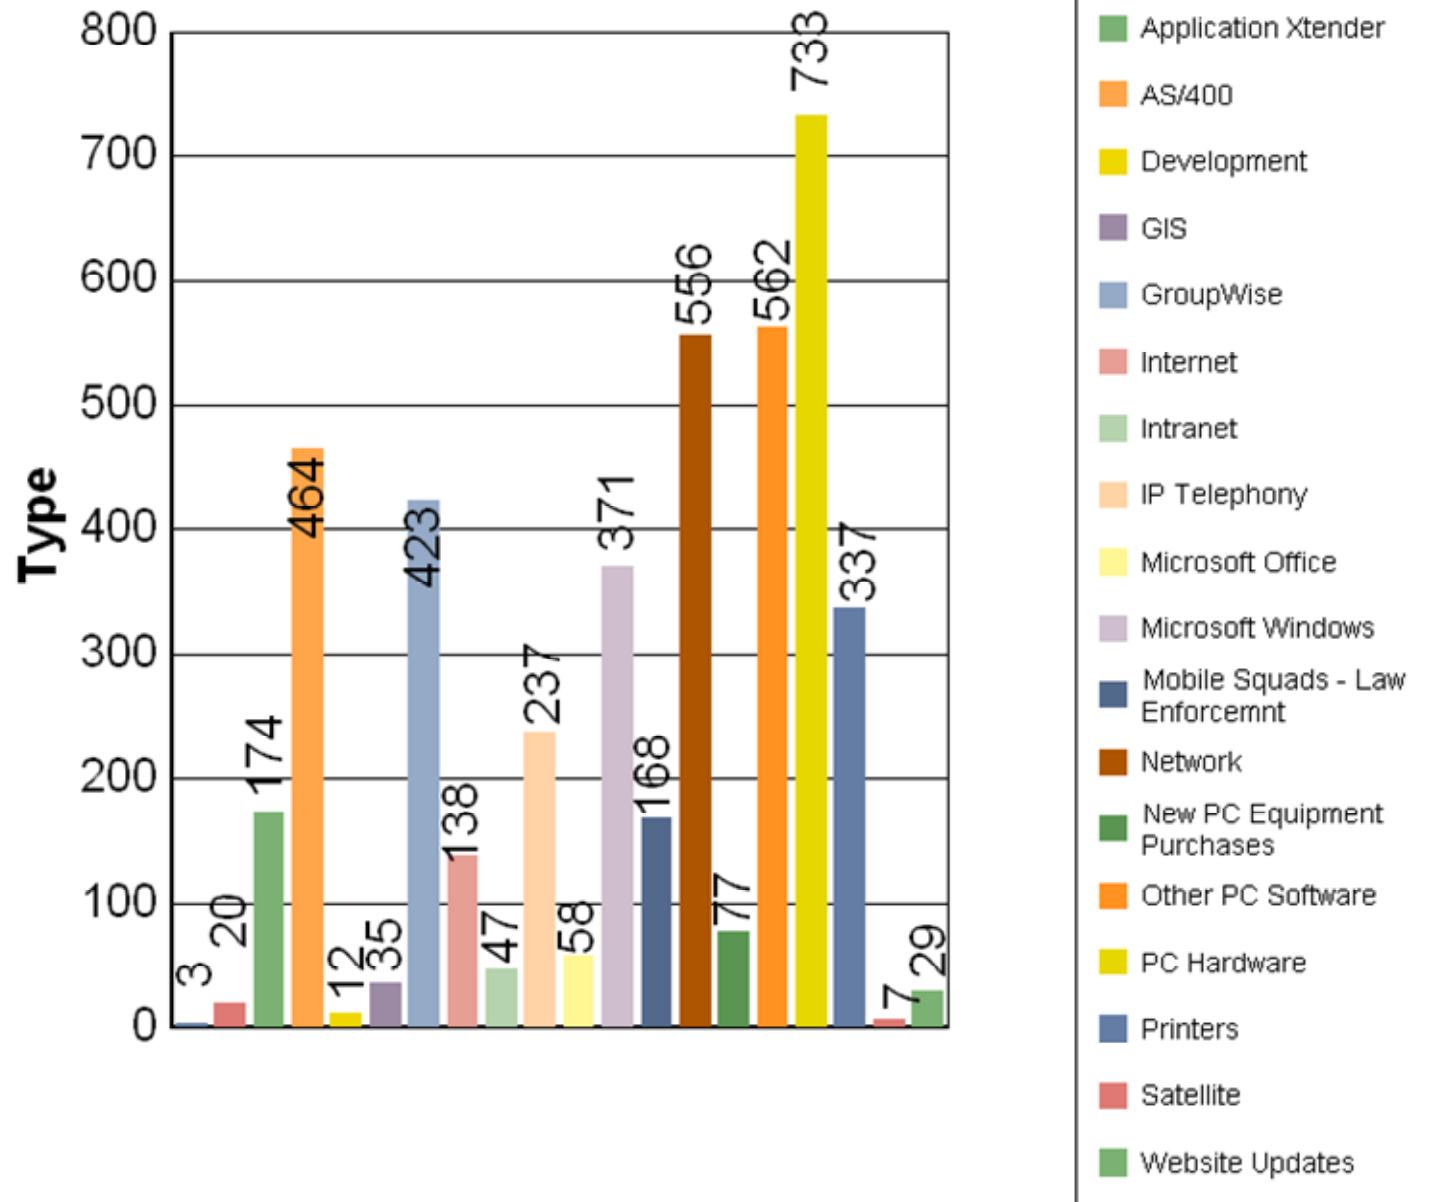

BUDGET HIGHLIGHTS, INCLUDING ANY PROPOSED EXPANSIONS IN 2008:

We will be purchasing hardware and software to support the following:

- Remote access to email and calendar and scheduling information
- Wireless security and monitoring
- Windows server log monitoring and reporting
- Imaging system usage reporting
- Network protection and secure network access
- Increased network based user storage
- Network traffic management and monitoring
- Windows based software development

CROW WING COUNTY 2008 BUDGET NARRATIVE

DEPARTMENT NAME: County Auditor - Elections

DEPARTMENT DESCRIPTION:

The County Auditor serves as the Chief Elections Official for the county. Our office is responsible for maintaining voter registration records for 40,000 registered voters as well as elections administration for all federal, state, county, city, township and school district elections.

MAJOR ACCOMPLISHMENTS & CHALLENGES IN 2007:

Conducted special primary and special election for vacancy in County Commissioner district.

MAJOR OBJECTIVES TO BE ACCOMPLISHED IN 2008:

Coordinating elections administration for state primary and general elections with new laws and regulations that will be passed in 2008 legislative session.

Use of equipment and technology will continue to increase included 2008 township elections.

Training of 500+ election judges to prepare for elections.

Overall goal of elections division is to administer fair, impartial elections for all entities.

BUDGET HIGHLIGHTS, INCLUDING ANY PROPOSED EXPANSIONS IN 2008:

2008 budget is not comparable to 2007 budget as odd years do not include the election costs for regular scheduled primary and general elections. Differences from 2006 include increased rates in postage costs and mileage rates, as well as increases in forms and ballots due to growth in county and higher expected voter turnout for Presidential election.

CROW WING COUNTY 2008 BUDGET NARRATIVE

DEPARTMENT NAME: Human Resources (Includes Safety/WC)

DEPARTMENT DESCRIPTION:

The human resource department is accountable for a number of distinct functions encompassing employment, training and development, compensation and benefits, safety and risk management, organizational development, employee and labor relations and legal compliance. The department is accountable for the development and execution of human resource programs and practices that contribute to a high performing organization promoting effective employee and labor relations, minimizing exposure to loss and ensuring organizational efficiency and effectiveness as well as compliance with internal and external policies, guidelines and regulations. Additionally, the department provides guidance on structure, staffing, mentoring and management, assisting department leaders with the effective utilization of their staffing resources.

MAJOR ACCOMPLISHMENTS & CHALLENGES IN 2007:

Human Resources, as a separate and distinct department and function, was launched in late March 2006. Much of the work product and initiatives involved establishing uniform programs and practices. First year accomplishments included the following:

Implementation of standardized orientation program 40+ participants

Standardization of recruitment and selection processes 502 applications (1/2 year) Redesign and implementation of benefits open enrollment processes 300+ attendees 60+ VEBA conversions

Development of compensation plans for Elected Officials and Sheriff Leadership, etc

Settlement of AFSCME and Teamster labor agreements and various grievance and mediations

Organizational development for Sheriff and Health Departments

Development of new performance appraisal form and training program

MAJOR OBJECTIVES TO BE ACCOMPLISHED IN 2008:

Completion of Pay Equity Study

Development of 2008 - 2009 negotiation strategies

Development of strategy including plan design to address multiple benefit issues

Settlement of LELS Deputies, IUOE Maintenance and IUOE Highway Contracts

Review and revisions of Personnel Policies Manual

Development of a service initiative to focusing on increasing the customer focus/service experience

Implementation of standardized performance appraisal system

Implementation of standardized pre-employment testing program

Implementation of management skills training

BUDGET HIGHLIGHTS, INCLUDING ANY PROPOSED EXPANSIONS IN 2008:

The department currently operates with a full-time director and a shared administrative staff person. Department service levels, contributions and accomplishments would be greatly enhanced by a full-time administrative staff person. The conversion from half-time to full-time was not added to the budget due to 2008 budget constraints, however if the opportunity exists to move to this model it would be very beneficial. Also not addressed in this budget is the establishment of a fund to address compliance items related to the pay-equity/market study. This is significant for compliance, integrity and the recruitment and retention of talent.

CROW WING COUNTY 2008 BUDGET NARRATIVE

DEPARTMENT NAME: CROW WING COUNTY ATTORNEY'S OFFICE

DEPARTMENT DESCRIPTION:

The Crow Wing County Attorney's Office currently consists of 8 attorneys and 9 non-attorney staff members. The attorneys consist of 1 elected County Attorney, 1 Chief Deputy County Attorney, 6 Assistant County Attorneys. The non-attorney staff consists of 1 Lead Legal Assistant, 6 Legal Assistants, 1 Senior Technical Clerk and 1 Technical Clerk/Receptionist. Though document length restrictions prohibit a comprehensive review of everyone's duties, a general overview is provided as follows.

1) Adult Criminal

Our office is responsible for the prosecution of all felonies which occur within Crow Wing County. Also for Gross Misdemeanors not occurring in a municipality that has their own misdemeanor prosecutor.

We handled 2,378 adult criminal matters in 2006. This included felony, gross misdemeanor, misdemeanor and petty misdemeanor matters. We have 4.25 FTE attorneys, 3.50 FTE legal assistants, 1 senior technical clerk and .50 FTE technical clerk primarily working in this area. We also have .25 FTE legal assistant monitoring and managing Crow Wing County criminal history suspense prevention and resolution program.

2) Juvenile Delinquency

Our office handled 1091 juvenile delinquency/status offense matters in 2006. In juvenile court offenses are not broken out the same as in adult court. Offenses are either delinquencies or status offenses. However, the underlying bad conduct

still ranges from serious felony to petty misdemeanor if the juvenile was an adult. We have .75 FTE attorneys and .75 FTE legal assistants primarily assigned to this area.

3) Child Protection

Our office is responsible for all children in need of protection or services (CHIPS) and parental termination matters occurring in Crow Wing County. These cases are very involved and we open 70 CHIPS cases 16 termination cases a year. We have 1 FTE attorney and .50 FTE legal assistant primarily assigned to this area.

4) Civil

Our office represents and does the legal work for all aspects of Crow Wing County's governmental operation. These services range from macro/policy making level (advising county board, county administrator, department heads) to the micro day to day operational level (tax appeals, child support enforcement, civil commitments, contracts, ordinance drafting, planning and zoning issues, attend county board meetings, etc.) We have 1.75 FTE attorneys and 1.25 FTE legal assistants working in this area. We also have .25 FTE legal assistant administrating Crow Wing County civil forfeiture program/efforts associated with criminal behavior.

In the operation of our office we have .50 FTE attorney, .50 FTE legal assistant and .50 FTE technical clerk primarily assigned to this area. The lead legal assistant, chief deputy attorney and county attorney duties are incorporated into the above overview.

MAJOR ACCOMPLISHMENTS & CHALLENGES IN 2007:

This category is inappropriate for this office.

MAJOR OBJECTIVES TO BE ACCOMPLISHED IN 2008:

This category is inappropriate for this office.

BUDGET HIGHLIGHTS, INCLUDING ANY PROPOSED EXPANSIONS IN 2008:

We have cut \$32,500.00 out of operational budget catagories as reflected on the Excluded/Reduced Budget Guidance Sheet. This places several of these catagories at a no margin for error level.

In 2007 we initiated a scanning program to digitize closed files. We were using contract services for this project. We have cut this \$20,000.00 from the 2008 budget. I doubt we can absorb this function internally. Consequently, we will continue to store files in a paper format.

The costs of sexual assault exams will increase from \$300 per exam to \$500 per exam in 2008. The county is required by law to pay for these exams. I have consequently increased the amount budgeted for this from \$2,000.00 to \$5,000.00 for 2008. This represents the first increase in per exam cost since we went to a flat fee format.

I am adding an attorney in 2008. I anticipate advertising the pay range of Attorney II (%59,274 - \$77,124) when we post. Consequently I have budgeted \$77,124 at this time. Should the new attorney be placed at a lower step, there would be a surplus to revert to the general fund. It is my opinion that in order to continue to fulfill my statutory duties and responsibilities at the level which should be expected of our office, the new attorney position is imperative. During the last 24 months, we have been as far as 12 months behind in making charging decisions in criminal matters. The new attorney will be 90% criminal and 10% other in assigned duties. Currently our criminal attorneys spend the equivalent of 3 - 3.5 days a week in court. We cover 3 criminal court calendars (up to 5 court calendars including juvenile and civil matters) simultaneously. This leaves little time for desk work. With the possibility of a 4th judge being chambered in Crow Wing County, the need for another attorney is magnified.

Office of the County Attorney

Donald F. Ryan, Crow Wing County Attorney
Bruce F. Alderman, Chief Deputy County Attorney

June 29, 2007

County Administrator
326 Laurel Street
Brainerd, MN 56401

Dear County Administrator:

Enclosed herewith please find the Budget Request for the Crow Wing County Attorney's Office for the calendar year 2007. I also enclose at this time the County Attorney's Contingency Budget Request for the calendar year 2007.

I have enclosed a copy of the 2007 Preparation check List for your ease and reference in looking at the above.

Please be advised that we act only as fiscal agents for the Children's Trust Fund (094-01) and this fund in no way should be considered part of my budget. Therefore, I estimated no budgetary numbers for it. Also, the County Attorney Forfeiture Fund (093-01) by law can not be considered as revenue and/or expenses which impact my budget. Therefore, there is no budgetary item for this as well. Historically, we have tracked the forfeiture fund internally and in December notified the County Auditor's Office how much money is to be carried over to the following calendar year.

For purposes of processing the 2008 Budget Request all necessary additions/ corrections to our 2007 levy where made by the County Auditor's Office and consequentially no further adjustments will be necessary to establish a baseline for purposes of the 2008 Budget Request, except as otherwise provided herein.

Under the income requests, you will note that I have used the county program aid sum of \$12,745 as and for income. If these dollars go up or down, my budget will need to be adjusted accordingly.

I draw your attention to the fact that my budget does not provide for any assessment to the Crow Wing County Self Insurance Fund. This is done pursuant to previous directive of the Crow Wing County Board that the same should not be budgeted for. The issue of whether or not to maintain a self-insurance fund for the purposes of administration of County

businesses is an administrative policy question. However, as the County's legal advisor I would be remiss not to recommend that this practice be changed. Though the County is insured through the Minnesota County Insurance Trust, there are exclusions in said insurance coverage. Should a monetary obligation arise which falls within one of the exclusions, the County currently has not budgeted to meet the same. It is my recommendation that on an annual basis an appropriate amount for self-insurance purposes should be set aside to cover these contingencies. Therefore, I recommend that the County Board reconsider its position on this issue.

You will note that I have in the budgeted a new attorney position for 2008. I have included this on the place provided for such additions. This new position is part of the 2008 Crow Wing County Attorney's Office budget submission.

The data for workmen's compensation amounts are currently unavailable to us and the health insurance benefit for only one anticipated new employee has been provided per the auditor's worksheet. Therefore, the budget would also have to be adjusted to reflect those amounts.

I have prepared the requested budget narratives for the 2008 budget. I draw your attention to the content of the same as I have not regurgitated it here.

I believe that the budget as submitted accurately reflects the needs of the Crow Wing County Attorney's Office for the year 2007, and reflects proper financial planning given the statutory responsibilities and duties of a county attorney. Consequently, I ask for approval of the same. Should the county board wish to make any changes in my budget, I request the opportunity to sit down and discuss it. I realize that each entity has various statutory duties, obligations and responsibilities. Historically, we have always been able to work out any discrepancies concerning budgetary issues and I would hope that this would be the same in the future.

Should any questions or concerns on any specific line items on my budget, I would be more than happy to discuss them with you, or any member of the board at any time.

Very truly yours,

Donald F. Ryan
Crow Wing County Attorney

CROW WING COUNTY 2008 BUDGET NARRATIVE

DEPARTMENT NAME: Recorder

DEPARTMENT DESCRIPTION:

File and maintain permanent records of all real estate transactions in Crow Wing County and pertinent related documentation.

MAJOR ACCOMPLISHMENTS & CHALLENGES IN 2007:

In January of 2007 we recorded our first electronic document. Documents come to our office via the internet from trusted submitters. Special legislation has allowed certain documents from certain submitters to be filed without original signatures.

We have just moved a portion of our staff into our new public research area. Public terminals for doing research and all index books are housed in this new area. So far the feedback has been positive. I am now coordinating with other offices to have there research items available on the computer's in this public area.

Challenges are to be ever aware of how to better serve the public while being mindful of dollars spent to accomplish your goal.

MAJOR OBJECTIVES TO BE ACCOMPLISHED IN 2008:

Continue upgrading on-line services. We now have 30 subscription clients that access our public research via there own computers.

BUDGET HIGHLIGHTS, INCLUDING ANY PROPOSED EXPANSIONS IN 2008:

Revenue is down, as the real estate market is very flat. Due to the fact that my personnel budget is 97% of my total general fund budget it make it very difficult to cut anything. All capital expenditures allowable are taken out of my technology fund, thus leaving my general fund budge as lean as possible. State Statute is quite stringent about turn-around time for documents and therefore keeping a fully trained complete staff is vital.

CROW WING COUNTY 2008 BUDGET NARRATIVE

DEPARTMENT NAME: County Surveyor

DEPARTMENT DESCRIPTION:

Maintain Public Land Survey Corners, maintain E-911 addressing, check both minor subdivision and subdivision plats, support the Land, Highway, GIS, Assessor, Auditor, County Attorney and Parks Departments with their surveying needs, write property descriptions for various County Offices and Departments, assist the general public and County Offices and Departments with surveying issues and questions.

MAJOR ACCOMPLISHMENTS & CHALLENGES IN 2007:

LIDAR (Light Detection and Ranging) and Digital Ortho (Colored Aerial Photography) projects. LIDAR will produce 2 foot contours which will aid staff in Permitting, Land Use, Watershed and drainage issues, Septic designs, Road designs, Forestry applications and more. Digital Orthos will allow staff with the GIS parcel mapping to view properties to aid in permitting, assessing, recognition of wet land and water boundaries, aid the surveyors in navigating to Public Land Corners. These two projects will be the two biggest tools for County Staff to make better and informed decisions and better serve the taxpayers. Continuing to offer the level of support mentioned above and the re-monumentation program to establish good County Coordinates on all of the corners.

MAJOR OBJECTIVES TO BE ACCOMPLISHED IN 2008:

To provide the same level of quality service and information to County Staff and the Taxpayers as we have in the past. To disseminate Public information that is in a coherent and easy to use format.

BUDGET HIGHLIGHTS, INCLUDING ANY PROPOSED EXPANSIONS IN 2008:

There are no proposed staff increases for 2008 and no planned major equipment purchases. Current staff levels including a Survey Technician paid under the Recorder's 16 funding serves our needs currently. I would hope to include her into the main Surveyor 102 budget in 2009.

CROW WING COUNTY 2008 BUDGET NARRATIVE

DEPARTMENT NAME: GIS

DEPARTMENT DESCRIPTION:

GIS develops, manages and updates geographic data within the county and assists departments in the decision making process by having data that is more accurate and readily available. GIS plays an important role in ensuring that Crow Wing County can effectively manage a wide range of geospatial issues including: population growth, development, and natural resource management.

MAJOR ACCOMPLISHMENTS & CHALLENGES IN 2007:

The largest challenge that we are faced with is to educate and inform county employees on what GIS is and the benefits it can provide each department. We are currently in the process of updating to a new gis database structure that will increase the staff's efficiency and productivity while also improving data integrity and accuracy. In addition, the major accomplishment that we hope to have achieved by the end of 2007 is the creation of a "public" gis site on the county's webpage. The site would allow the public to access information related to their property, i.e, taxes, zoning classification, etc.

MAJOR OBJECTIVES TO BE ACCOMPLISHED IN 2008:

Continue to strengthen our GIS training efforts for county employees and foster GIS working relationships with county departments.

BUDGET HIGHLIGHTS, INCLUDING ANY PROPOSED EXPANSIONS IN 2008:

CROW WING COUNTY 2008 BUDGET NARRATIVE

DEPARTMENT NAME: FACILITIES

DEPARTMENT DESCRIPTION:

BUILDING REPAIR AND MAINTENANCE

MAJOR ACCOMPLISHMENTS & CHALLENGES IN 2007:

- 1) Completion of the New Building Project.
- 2) Taking on additional duties of Campus Security System
- 3) Incorporating the Highway Department into a Countywide Maintenance Program
- 4) Combining individual service contracts
- 5) Development of a tracking system for all workorders

MAJOR OBJECTIVES TO BE ACCOMPLISHED IN 2008:

- 1) Reorganization of department from a reactive response center to a proactive system of preventative maintenance
- 2) Cost reduction of utilities
- 3) Development of a Sanitation Program to reduce cost and reliance on outside services
- 3) Create a stronger Safety Program
- 4) Improve overall skill levels and develop project management abilities of entire staff
- 5) Encourage more cross training and inter-departmental assistance.

BUDGET HIGHLIGHTS, INCLUDING ANY PROPOSED EXPANSIONS IN 2008:

Challenges that face the Facilities Department in 2008 will be trying to maintain a larger campus with the same County workforce. Since 2005 we have built new, larger buildings, tripling the building area to over 500,000 square feet, and purchasing equipment valued at over \$5 million. By 2008, most of these buildings will be off warranty, and the County will be fully responsible for the maintenance. Additional training and service contracts will be needed if we are to properly maintain these new assets. Some of the more routine duties will be replaced with preventive maintenance assignments. All personnel will be asked to continue to explore ways to improve the overall efficiency of our department.

Utilities presently account for over 50% of our annual budget, and this percentage is likely to increase as new buildings come on line. Because we anticipate higher energy costs in 2008, we have budgeted an increase of \$116,950 in utility costs over last year budget. If fuel costs continue to rise at a rate faster than the inflation rate, we could see budget over-runs before the end of the year. As a department, we will be looking into ways to reduce our energy costs now.

In summary, the following items of the 2008 Facilities Budget should be noted:

- 1) There will be no increase in personnel for 2008. Through attrition, personnel costs are planned to decrease by 14.9%.
- 2) Overtime will be reduced to only as called basis.
- 3) Utilities costs are budgeted for a 17% increase, or \$116,950
- 4) Administration costs are expected to be 35% less than this year's budget, savings (\$10,862)
- 5) Total Expenditures will be 8.6% less, (\$168,422).
- 6) Revenues are expected to be substantially higher to help offset costs.
- 7) Total Net Expenditures are planned to be reduced by 13.4%, (\$246,672).

Crow Wing County 2008 Budget Narrative

Department Name: Planning and Zoning Department

Department Description: There are two divisions within the Department:

Planning:

The Planning Division is comprised of a:

County Planner
Assistant Planner
Planning Assistant

This Division manages all sub-divisions, plats, zoning changes, conditional use permits, facilitates public hearings for the Planning Commission and presents land use requests to the County Board of Commissioners.

Zoning:

The Zoning Division is comprised of 4 sections and managed by the Lead Supervisor

Administration

Lead Supervisor
Office Coordinator

Permitting

Supervisor
3 Technical Clerks

Technical Services

Supervisor (Unpaid leave of absence)
2 Field Inspector

Enforcement Section

Lead Supervisor/Enforcement Officer
Enforcement Officer
Technical Clerk

This division is responsible for processing and issuing all land use permits, review and approve septic designs, assist with wetland delineations, storm water and erosion issues, variance applications, facilitate the Board of Adjustment public hearings, receive, process and decide upon Wetland Conservation Act applications, conduct investigations for land use complaints, administer all land use ordinances and manage the departments budget.

Major Accomplishments & Challenges in 2007

- Completed 2 stage move from the Elks Building to the basement of the Courthouse to the Land Services Building.
- Operating within the approved 2007 budget with decreasing revenues.
- Operating the Department without full staff.
- Hiring a new Enforcement Officer.
- Re-establishing the relationship between the Soil and Water Conservation District staff and Board and the Planning and Zoning Department for administration of the Wetland Conservation Act.
- Meeting with the County Administrator and the advent of a Land Services organization in support of a Leadership Team of Functioning Units.

Major Objectives to be Accomplished in 2008.

- Research and develop a Department fee schedule with assistance from the Auditor's Office for review and approval by the County Board.
- Prepare draft changes to the Planning and Zoning Ordinance; hold public meetings for discussion of proposed changes to the Ordinance and present to the County Board of Commissioners.
- Assist as needed with the Sanitary Management District.
- Present innovative software changes to assist the Department with the permitting process in order to integrate LIDAR, aerial photography, geographic information systems (ArcView/Info), AS 400, Application Extender including ports to other Departments.
- Continue Department system analysis and improvement.
- Balance staff training between technical needs and customers services training.
- Developing a future land use map.
- Integrate changes to the Wetland Conservation Act into the County's Planning and Zoning Ordinance.

Budget Highlights, Including Any Proposed Expansions in 2008.

- \$35,000 estimated software cost for incorporating proposed software into the permitting process.
- \$15,000 cost for consultant to develop future land use map.
- Return or replacement of one Technical Services staff person.

Respectfully,

Dennis F. Myers, Supervisor
Planning and Zoning Department

VETERANS SERVICES

DEPARTMENT: Veterans Service

SUPERVISOR: Veteran Service Officer, Bob Nelson

FUND NUMBER: 01-122

ACTIVITY SCOPE

Interview Veterans and dependents to provide the type of service most appropriate.

OBJECTIVES FOR 2008

Address medical needs of veterans and coordinate appointments at VA Medical Center.
Refer Veterans and dependents for alcoholism, drug addiction and mental health counseling.

Attend mandated course and seminars necessary to maintain certification.

Schedule trips and arranges for van driver.

Register as many veterans with the VA Medical Center to include COBC Brainerd.

PROGRAMS

Type	Resource Allocation
1. Veterans Interviews for Benefits	90%
2. Hospital Day	2%
3. VA Region Training and Meetings	6%
4. Certification tests for County Veteran Service Officers	2%

WORKLOAD DATA

		<u>2004</u>	<u>2005</u>	<u>2006</u>
1.	Contacts	10,305	10,150	10,613
2.	Trips	186	169	144
3.	Veterans Per Trip	5.1	4.1	4.5
4.	Volunteer Drivers	9	7	9
5.	Veterans Population	6494	6444	NA
6.	VA Expenditures to Vets	\$ 11,846,000	\$ 12,932,000	NA

2007 STAFFING LEVELS

<u>Number</u>	<u>Status</u>	<u>Position Title</u>
1	Full Time	Veterans Service Officer
1	Full Time	Assistant Veterans Service Officer
1	Full Time	Senior Technical Clerk

BUDGET COMMENTARY

This budget includes changes in how the department will account for donations, rider fees and donations equipment other than the Van. I would like to begin to solicit funds from the service organization to collect and reserve donations for a new van rather than try to collect everything in one year. This budget does not include Veteran Service Grant for equipment and Outreach. It would be nice to be able to set up service centers in the communities of Crosslake, Garrison, and Pequot Lakes.

CROW WING COUNTY 2008 BUDGET NARRATIVE

DEPARTMENT NAME: Crow Wing County Sheriff's Office

DEPARTMENT DESCRIPTION:

The Sheriff's Office is run by the Sheriff who is an elected official responsible directly to the people of Crow Wing County. State Statutes dictate the Sheriff's area of responsibility and outline the basic expectations of the office. Constituents further define the Sheriff's role by bringing forth the needs of their communities and their desire for service.

There are numerous divisions within the Sheriff's Office, including Patrol, Investigations, Emergency Dispatch, Jail, Warrants, Civil Process, Support and specialized teams such as Boat and Water, Dive Team, Tactical Team, Bomb Squad, K9 and Mounted Patrol.

Together the Sheriff and the Sheriff's staff work to accomplish the following:

- Serve and protect the public 24 hours a day, 7 days a week, 365 days a year.
- Provide emergency service upon request anywhere in the county.
- Provide central dispatching of emergency service units within the county.
- Provide for the notification of resident and visitors in Crow Wing County of imminent danger from storms, nuclear disasters, chemical spills, fire or flooding.
- Warn and direct evacuations in the event of immediate danger to the public.

- Enforce laws enacted for the protection of persons and property.
- Apprehend and confine individuals who violate the laws of our society.
- Patrol Crow Wing County waters and enforce laws pertaining to regulations of traffic on the waters. Investigate watercraft and water accidents, including search, rescue and recovery of missing boaters.
- Enforce all laws related to other recreational vehicles such as snowmobiles and ATVs
- Investigate all non-natural deaths in conjunction with the Coroner.
- Assist Social Services with the investigation of child and domestic abuse cases.
- Maintain records related to criminal enforcement. Work in conjunction with the County Attorney and city prosecutors to obtain convictions.
- Maintain warrant records for those persons wanted in Crow Wing County.
- Transport persons apprehended in other jurisdictions back to Crow Wing County for confinement. Arrange for the extradition of persons arrested in other states.
- Provide for the confinement and safekeeping of jail inmates.
- Transport convicted prisoners to state institutions.
- Transport juveniles to and from secure facilities within the state.
- Transport inebriated, mentally ill and mentally incompetent persons to hospitals and state institutions.
- Maintain equipment and vehicles necessary to provide such services.

- Serve civil and criminal processes and handle matters such as wage levies and mortgage foreclosure sales.
- Provide courtroom security.
- Meet state and federal mandates regarding reporting of crimes and other governmental statistics.
- Meet training mandates to stay current on law changes and to maintain law enforcement licenses.

MAJOR ACCOMPLISHMENTS AND CHALLENGES IN 2007:

Organizational Changes: We began the year with the inauguration of a new Sheriff who had many new ideas and were faced with the challenge of combining those ideas with those that were already set in motion. One initiative that was particularly important was the need to change the organizational structure of the office to meet the needs of the growing staff. It was in the beginning months of 2007 that this was reviewed. Changes were implemented that are more in line with other organizations that match our size and degree of specialty. The changes that were made have proven to be effective in increasing efficiency within the office.

Technological Changes: In March, we went live with the first stages of our new recordkeeping system. The new system allows for information to be shared between all law enforcement agencies within our county and eliminates redundancy in our recordkeeping process. The county has taken a lead role in this project and has already begun to reap the benefit of this collaboration. The jail began using the new system in May. Warrants will be available within weeks and the planning for the civil process module will begin soon. We have made progress implementing this project and we have seen positive results, but we still have a way to go before the project is complete.

Facilities: In May we opened a new 286 bed Jail facility. After several years of planning and preparation, the jail opened on time and has been going well. We have partnered with Cass County to house 60 inmates per contract by July 1, 2007. A significant area of concern is the challenge we face in the current Law Enforcement Center. This building has become outdated and outgrown. Lack of useable space for staff and storage, fluctuations in temperature, unhealthy fumes are all some of the issues that we face on a daily basis.

Increased Services: Also in May of this year, we implemented a permanent program for fulltime Courtroom Security. In 2006, a pilot program was adopted in response to requests that were received from the judges and departments that are housed in the new judicial building. During that pilot stage, we were able to better assess our needs and we were able to design and implement a program that allowed for us to provide full-time coverage using part-time officers.

Closing of Central Minnesota Juvenile Center (CMJC): The closing of CMJC and the lack of this type of facility in our area places a stress on our office that affects daily decision making in the field and taxes our staff with increased transports.

Budgetary Restraints: We have accomplished all of the above while working within an extremely tight budget for 2007.

MAJOR OBJECTIVES TO BE ACCOMPLISHED IN 2008:

Organizational Restructure: The restructuring that began in 2007 will be further implemented in 2008. With further restructuring in place, we will be able to work more efficiently as we rise to some of the challenges that we have ahead of us. We also hope to incorporate Emergency Management under the Sheriff's direction. The mission of both offices are so closely aligned that it makes sense for them to come together under one authority.

Technology Changes: We will continue to take a lead role in advancing technology within our field. In 2008 we should see full system integration with the design and implementation of the civil process module. Increased efficiencies gained by this endeavor will benefit our entire organization.

Facilities: We intend to re-engage the County Board in discussion related to the planning of a new law enforcement center. A new facility is imperative to our operation.

Increased Traffic Enforcement: In an effort to move toward zero traffic related fatalities in Crow Wing County, we will be increasing our traffic law enforcement efforts. We will continue to work with state and local agencies, partnering with them by participating in new programs and providing more aggressive traffic enforcement.

Aggressive Narcotic's Enforcement: Law enforcement in Crow Wing County is fortunate to have a division of the sheriff's office strictly dedicated to providing narcotic's enforcement to our citizens as well as our visitors. It is a goal of this office to continue to be proactive in this vital area.

New programs: We will be participating in Driving While Intoxicated Court program. This is a program much like Drug Court that is an inter-departmental effort to address the issues related to DWIs. We will also be focusing more on Crime Prevention and the revitalization of programs such as Neighborhood Watch. The jail will be working to increase structured programming for inmates to reduce the recidivism rate and enable the inmates to function better in their personal lives upon release. Every division will be looking at the possibility of hosting regional and state level training programs in our area to help increase revenue while also meeting our own internal training needs.

Juvenile Detention: We will work in conjunction with the County Board, State agencies and other stakeholders to determine a local solution to the need for a juvenile detention facility within our area.

K9 retirement: One of our K9s will have to be retired in 2008. A new dog will need to be purchased and trained to fill his spot. Our K9 division is an integral component of our operation.

Future planning: We will continue planning for the 800 Mhz public safety radio conversion project that will begin in 2010. This project will affect public safety for years to come and is mandated by the State for implementation in 2012.

BUDGET HIGHLIGHTS, INCLUDING PROPOSED EXPANSIONS IN 2008:

The 2008 budget incorporates reclassification requests necessary to carry out this planning requirement.

Money has been requested to allow for the purchase and training of a new K9.

Our jail will allow for more out-of-county housing, resulting in increased revenue. We would like to also explore the possibility of forming partnerships with other counties for housing of their inmates, bringing in more revenue.

We will explore funding opportunities such as grants, partnerships and donations to help accomplish our objectives for 2008.

CROW WING COUNTY 2008 BUDGET NARRATIVE

DEPARTMENT NAME: Emergency Management

DEPARTMENT DESCRIPTION:

Crow Wing County Emergency Management coordinates with local, state & federal agencies to preserve life, property, and the well-being of our citizens from natural, technological, and man-made disasters.

MAJOR ACCOMPLISHMENTS & CHALLENGES IN 2007:

1. Update/Revision of Crow Wing County's All-Hazard Emergency Operations Plan.
2. Approval of Crow Wing County's All-Hazard Emergency Operations Plan by District 2 Regional Review Committee.
3. Crow Wing County is compliant with the National Incident Management System (NIMS).
4. Trained multiple County employees and other agencies in NIMS with grant dollars.

MAJOR OBJECTIVES TO BE ACCOMPLISHED IN 2008:

1. Crow Wing County All-Hazard Mitigation Plan - FEMA/HSEM
2. Crow Wing County All-Hazard Emergency Operations Plan - Peer Review
3. Development of a Crow Wing County Domestic Preparedness Group
4. Emergency Operation Center - Trainings and Exercises
5. Radio System enhancement - 800 MHz/VHF Digital Project
5. Full-Scale Exercise - August 2008
6. Increase Coordination, Collaboration and Communication among All-County Agencies

BUDGET HIGHLIGHTS, INCLUDING ANY PROPOSED EXPANSIONS IN 2008:

Only expansion to the 2008 budget would be an increase in the equipment service contract.

CROW WING COUNTY 2008 BUDGET NARRATIVE

DEPARTMENT NAME: Crow Wing County Health Department

DEPARTMENT DESCRIPTION:

The Health Departments' Mission Statement is to "Lead efforts and provide services to protect and promote the health of all people in Crow Wing County." Our department employs 35 staff: 16 public health professionals (registered nurses & a health educator), 7 home health aides, 9 support staff, two nurse managers & one administrative manager. Our major program divisions include Healthy Communities & Behaviors, Infectious Disease, Environmental Health Hazards, Disaster Preparedness & Response, Quality & Accessibility of Health Services & Infrastructure. Within our major divisions there are currently 18 programs funded through partnership with the Minnesota Department of Health, private or public insurances, grants, sliding fee scale & tax levy.

MAJOR ACCOMPLISHMENTS & CHALLENGES IN 2007:

The Department had a few challenges that resulted in positive accomplishments in 2007. Our newly re-structured management team was in it's 4th month at the beginning of the new year. Since the establishment of the new position of the Women, Infant & Children (WIC) Coordinator, we have the staff time to commit to the ongoing quality & accessibility of the program while managing its steady growth. In 2007 we partnered with Crosby Regional Medical Center to hold WIC clinics in their hospital to better reach our participants in that region of the county. We are proud of this partnership.

In addition to the restructuring, we also managed the implementation as the lead agency for the South Country Health Alliance program. This undertaking involved hiring & training all Health Department staff, care coordinating nearly 4000 clients new to the program in close partnership with many health care entities. Although this program embarked only 6 months ago, we have seen positive impacts both in our revenues & on report from the many clients who are being served. One ongoing challenge in the past several years is the decrease in elderly & disabled clients seen through our home care

program. Although this has been a national trend, we also anticipate steady growth of the 75+ age group needing in-home & customized living options in our county. In the meantime, this results in the inability to justify retaining unfilled home health aide positions when the demand does not support it. The Health Department also began a dental varnishing program early this year to provide the application of fluoride to children's teeth, especially those at risk of developing dental caries. This is a preventative program at it's finest since the varnish acts as a protectant and also works to reverse the process of tooth decay by acting to remineralize the cavity. Seasonal influenza and other communicable disease surveillance continues to be a priority, along with the Health Alert Network and engagement with our public and private partners in the Public Health Preparedness arena.

MAJOR OBJECTIVES TO BE ACCOMPLISHED IN 2008:

The Health Department will strive to continue to serve all citizens of the county, with special consideration to those who are underinsured and uninsured, by building programs including South Country Health Alliance, keeping engaged in the discussion of the Minnesota Public Health Information Network (MnPHIN) and other State initiatives, continuing to explore the Food Beverage & Lodging inspection & education possibility, building on the infrastructure and strength of our personnel through continuing education/trainings, and maintaining strong relationships with local law enforcement, jail, hospitals, clinics, fire departments, other county agencies, and other public and private entities.

BUDGET HIGHLIGHTS, INCLUDING ANY PROPOSED EXPANSIONS IN 2008:

There were four (4) home health aide positions removed from the 2008 budget. Depending on trends & community input this may need to be re-considered if demand warrants.

Removed one (1) part-time support staff position originally allocated for the South Country Health Alliance (SCHA) program. Expansion of new products for the SCHA program may justify new staff positions in the future.

A potential decrease in Public Health Preparedness funding is expected for 2008. More information will be available by mid-July, 2007.

Centers for Disease Control (CDC) and Minnesota Department of Health (MDH) expect no pandemic influenza funding to be available to local public health departments for 2008.

Increase in participant reimbursement rate for the Women's, Infants & Children program to increase by \$1.00.

Undetermined increase of Family Home Visiting funds will be allocated to local county health departments in 2008 (expected to double).

Increase in Child & Teen Check-Up Outreach revenues expected for 2008.

Increase in Child Passenger Safety grant revenues expected for 2008.

Expansion of our Health Promotion program through offerings of Tobacco Cessation Services (with special consideration for the underinsured/uninsured population), and educational curriculum/classes regarding Fatherhood/Chemical Health etc. delivered to the jailed population by a staff member.

CROW WING COUNTY 2008 BUDGET NARRATIVE

DEPARTMENT NAME: Parks

DEPARTMENT DESCRIPTION:

Current full time personnel include a Parks Supervisor and two Parks Workers. Responsibilities include the grounds maintenance of the County Campus, Detox grounds, Highway Department grounds, Highway Department Deerwood Substation grounds, as well as 7 designated County Parks and 15 Public Accesses, 2 Cross Country Ski Trail Systems and the supervision of 3 ATV trail systems.

MAJOR ACCOMPLISHMENTS & CHALLENGES IN 2007:

Ability to stay within the General Budget as allotted.

The Parks Reserve Fund has made it possible to plan two parks that have enhanced our Parks Department. Mainly the "South Long Lake Community Park" due to be completed in August of 2007 and the "Milford Mine Memorial Park."

The planning phase of the "Milford Mine Memorial Park" is currently in full swing, additional grant money has been applied for, more grant opportunities will become available to aid with the construction phase of this Park.

MAJOR OBJECTIVES TO BE ACCOMPLISHED IN 2008:

The construction phase of the "Milford Mine Memorial Park" is on the Parks Agenda for 2008. As well as the continuation of planning for another county park "Gilbert Lake Community Park"

BUDGET HIGHLIGHTS, INCLUDING ANY PROPOSED EXPANSIONS IN 2008:

With the current budget constraints, the Parks Department has no plans to hire additional staff.

CROW WING COUNTY 2008 BUDGET NARRATIVE

DEPARTMENT NAME: Crow Wing County Extension

DEPARTMENT DESCRIPTION:

Crow Wing County Extension is "extending" the University of Minnesota out to the residents of Crow Wing County. Extension educators conduct educational programs in Food & Nutrition, 4-H Youth Development, Teen Pregnancy Prevention, Shoreland & Water Quality & Master Gardeners.

MAJOR ACCOMPLISHMENTS & CHALLENGES IN 2007:

The Extension Office moved into a new office, which has increased productivity and staff morale. Increased educational efforts in Shoreland and Water Quality. Increased numbers of County Master Gardeners and 4-H members. Educators continue to reach out to new audiences. One challenge is to maintain the funding from the Minnesota Department of Health for the Teen Pregnancy Prevention programming.

MAJOR OBJECTIVES TO BE ACCOMPLISHED IN 2008:

Continue to grow Shoreland and Water Quality programs. Improve the traditional 4-H program and reach out to new youth in after-school programs and day camps. Continue the Teen Pregnancy Prevention program. Reach new audiences with the Food & Nutrition program.

BUDGET HIGHLIGHTS, INCLUDING ANY PROPOSED EXPANSIONS IN 2008:

The Crow Wing County Extension Committee feels that the Extension staff is doing a very good job and no expansions are being proposed in 2008.

CROW WING COUNTY 2008 BUDGET NARRATIVE

DEPARTMENT NAME: Highway

DEPARTMENT DESCRIPTION:

The primary responsibility of the County Highway Department is to provide for the construction and maintenance of approximately 600 miles of roads – county state aid highways, county roads, and town roads in the unorganized territories. There are a total of 39 employees who make up the County Highway Department and are included in the Road & Bridge budget which is made up of nearly 50% local levy dollars and other local revenues and 50% state aid and other intergovernmental funds.

MAJOR ACCOMPLISHMENTS & CHALLENGES IN 2007:

Accomplishments and challenges remain much the same each year, however as construction costs continue to increase at rates much greater than the consumer price index we are facing a serious situation in our efforts to maintain the quality of our county road system. With the proposed budget it is reasonable to anticipate that we will continue to provide the required level of maintenance for our systems, but I believe we will just “hold our own” or even see some decrease in the overall quality of the system as surface treatments, new construction and enhancements needs will not be met. It becomes obvious that without an increase in transportation funding at the State level that is shared with the Counties, the only revenue source available to Counties is the property tax, and therefore it is unreasonable to expect a significant increase in the Road & Bridge levy. The foreseeable future appears to be one of simply maintaining what we have, yet the demands continue to increase. Thus, transportation funding becomes the BIG challenge, and there is no easy answer.

A practical challenge for the County Highway Department and the County Board is to resume "long-range" planning and return to a 5-Year or even a 6-Year planning cycle which will allow for the development of a reasonable CIP for road improvement projects. Current "planning" authorization by the County Board is limited to 2007 although staff is planning for federal-aid projects through 2011 and even beyond. Thus, no CIP document for Road & Bridge road projects or capital improvement projects has been submitted. Another practical challenge for the Road & Bridge budget process is dealing with "cash flow"; it has become almost painfully clear that a carry-over balance in the range of \$1,000,000 is necessary rather than the "hoped-for" \$500,000 primarily due to the kinds of state aid projects being performed since fewer projects are carried over from one year to the next.

In addition to these funds, we applied for and were successful in obtaining approximately \$900,000 in various state and federal funding for projects that were or will be constructed this year. When budgets were prepared in 2006, we had no idea that we would be receiving these funds in 2007 and therefore could not make them a part of the overall budget.

MAJOR OBJECTIVES TO BE ACCOMPLISHED IN 2008:

Of particular concern is the goal of keeping the overall budget at the same level as 2007. Keeping the levy amount the same is more easily accomplished as those numbers are relatively static. The funding that is more dynamic is related to federal dollars and the numerous grants we have applied for and been successful in obtaining. For instance, in 2008 it is anticipated that we will utilize \$978,000 of federal funds for the CSAH 2 project, \$954,000 for the CSAH 10 project, \$155,000 for the CSAH 48 trail and we have been requested by MnDOT to proceed with a project identified for 2009 in 2008 utilizing \$222,600 of federal funding. We need to ensure that we aren't asking for budget requirements that tie our hands in applying for these types of grants and/or cause us to turn them down. In this era of soaring petroleum costs and leveled off transportation funding, we need to be able to keep fighting for and utilizing these types of funding sources or our road and bridge improvement program will drop off dramatically.

It is important to note that the proposed 2008 Road & Bridge budget has been prepared using fixed but assumed information for expenditures; the "personal services" portion of the budget represents three(3) less employees in 2008 than in 2007. The remaining expenditures are based on a rolling 5-year average since there are so many variables in required roadway maintenance; this method has worked well in the past and allows line-item adjustments during the year as may be needed. It is also important to note that revenues for the most part can only be estimated and do not become

facts until tax settlements and appropriations are made after the first of the year. As a result, the proposed budget for the most part is really an estimate.

BUDGET HIGHLIGHTS, INCLUDING ANY PROPOSED EXPANSIONS IN 2008:

The proposed 2008 Road & Bridge levy is a 19.76% increase over 2007. \$500,000 of the increase (93%) will eliminate the budgeted deficit that has been used as an Operating Reserve Carried Forward from one year to the next. This will result in a balance between revenues and expenditures for the 2008 budget. The Local 49 labor agreement has been finalized and the 2008 budget includes the new pay equity wage grid and benefits package for those employees.

Assuming the same level of county state aid construction funds for 2008 as 2007, the proposed (and estimated) 2008 Road & Bridge budget is 1.18% more than the 2007 budget. With all these adjustments the local road improvement category of the 2008 Road & Bridge budget has been reduced 16% from the 2007 budget and is \$350,000 less than actual expenditures for local road improvements in 2007. As always, this line item is where we need an increase in the future to be able to properly maintain our local road system.

MEMO

DATE: December 19, 2007

TO: Crow Wing County Commissioners
Debby Erickson, County Auditor
David Hamilton, County Administrator

FROM: Susan Beck, Human Service Director

SUBJECT: 2008 Proposed Budget-Final Revision

Assumptions:

- \$ 286,750 will be used from reserves to cover Social Services' \$765,000 annual commitment to assist with \$2 million in capital expenditures associated with the building project. 2008 will be the last year that this amount will be transferred to the General Fund as the \$2 million will be paid in full. In 2009, that amount will revert to \$297,500 annually.
- Staff for the Special Needs Basic Care project are budgeted but will only be hired if the referrals and revenue will justify the expenditure.

Total levy increase is .88% for 2008.

Significant Revenue Increases:

Service Area	Explanation	Budget Impact
Long Term Care	Increased revenues from South Country Health Alliance less expenses	+\$ 129,805
Income Maintenance	Increased administrative allocation from ISP grant	+\$ 17,000
	Mental Health Initiative Grant	+\$ 5,000
Child Welfare	Continuing targeted case management billings and legislative backfill if necessary	\$310,000
Vulnerable Adult/Developmental Disabilities	Case Management improved rate	+\$ 12,000
Children's Mental Health	Case Management improved rate	+\$ 33,000
Child Support	Focus on Health Insurance incentives	+\$ 2,000
	Total New Revenues	\$ 508,805

Expense Adjustments:

Service Area	Explanation	Impact

Chemical Dependency	Planned increase of \$80,000 in Consolidated Fund match and Detox costs to reflect actual utilization.	- \$80,000
Poor Relief Billings	More sex offenders committed to Moose Lake; Increase in state per diems	- \$30,000
Chemical Dependency SW	Tails to 2007 budget mid-year hire. Drug court revenues from 07-08 cover costs.	- \$ 10,600
Adult Mental Health	Targeted case management revenues lower than anticipated-reduced revenues	- \$ 27,000
	1.0 FTE Social Worker-covered by SCHA and CareBlue revenues (\$50,000)	-0-
Income Maintenance	Hire full-time Financial Worker in lieu of replacing an Accounting Technician.	Savings of + \$13,200
	Full-time MFIP Social Worker 100% funded by Integrated Services Project grant funds. (\$50,000) Approved in 2007.	-0-
Developmental Disabilities	1.0 FTE Social Worker-covered by SCHA and CareBlue revenues (\$50,000)	-0-
Long Term Care	1.0 FTE Social worker to meet increased need in MSHO and South Country Senior Care Plus programs. This position would be fully funded by case management revenues and our new income from South Country Health	-0-

	Alliance. (\$50,000)	
	1.0 FTE Case Aide to assist MSHO/AbilityCare—half paid directly by SCHA and remainder through paraprofessional case management billings. (\$42,300)	-0-
	Additional Expenses	\$ 134,400

**Crow Wing County Social Services
Major accomplishments in 2006-2007:**

1. Implementation of county-based purchasing after over ten years of visioning, planning and struggles with the State. Crow Wing County now has about 3600 Medical Assistance, General Assistance Medical Care and MinnesotaCare recipients in managed care through South Country Health Alliance.
2. Development and refinement of care coordination for the elderly population. We now provide services under contract with Blue Plus, Medica and UCare and South Country.
3. Implementation of a grant for an Integrated Services Project. We have intensive targeted services to welfare (MFIP) recipients that focus on overcoming physical, mental and chemical health problems that are barriers to employment.
4. Child Support: Implementation of Shared Income Guidelines which takes both parents' income into account when child support is determined. This involved months of preparation and has totally revised the child support process.
5. Continued development of a community-based mental health system in response to the closure of BRHSC's adult mental health program and the opening of the Baxter 16 bed hospital.
6. Participation in development and implementation of Drug Court.
7. Successful application for a school-based children's mental health grant that is being implemented by the Collaborative.
8. Imaging of all closed case files to reduce the need for additional storage space.
9. Implementation of new fiscal software for Social Services payments.
10. Kept out-of-home placements under budget.

11. Completed the Program Improved Plan based on the Child and Family Service Review.

Goals for 2008:

1. Implementation of care coordination (AbilityCare with South Country/CareBlue with Blue Cross) for the disabled population.
2. Implementation of new chemical dependency assessment process as prescribed by the State.
3. Implementation of MFIP Family Connection grant and Family Stabilization Services.
4. Maintain levels of service and access as in previous years.

CROW WING COUNTY 2008 BUDGET NARRATIVE

DEPARTMENT NAME: Land Department

DEPARTMENT DESCRIPTION:

Responsible for managing 103,000 +- acres of County administered natural resource lands with management based upon professional natural resource management standards and techniques, policies adopted by the County Board and State Law. The Department / County has a fiduciary responsibility to the tax forfeited trust to try to maximize revenues from said lands to the benefit of local taxing districts while providing multiple opportunities for a diverse forest user while protecting the long-term sustainability of the forest resources. Sustainable forest management is about striking a balance between economic, social and environmental values in a manner that protects all of these values over time.

Because the Department is responsible for the management of all tax forfeited properties, properties forfeiting for non-payment of taxes in urban areas require a significant commitment of staff resources to prepare land sale lists and to resolve a multitude of problems common to tax forfeited properties e.g. encroachments, garbage, noxious weed growth, abandoned structures, liability issues, etc.

Our Department administers three (3) budgets e.g. Forfeited Tax Sale Fund, Grants, and Timber Development. All staff are paid from the Forfeited Tax Sale Fund and is the most significant from a revenue / expenditure perspective with surplus revenue returned every year to the benefit of the County Building Fund, County Parks, County General Fund and to school districts, cities and towns. The Grants budget does not cover salaries but is very important from a natural resource perspective. These funds can be used for a variety of natural resource management related expenses and over the last several years have primarily be used for forest road maintenance and acquisitions. The Grants budget is made up of various parts e.g. Resource Development (payment in lieu of tax), Forest Roads and occasionally we have utilized this budget to receive white pine grant monies and Ruffed Grouse Society grant monies. Grant funds are carried over from year to year and, at the time of this writing, reserves equal approximately \$246,000. The Timber Development Budget is rather obscure and held more importance years ago. There is approximately \$20,000 in reserves and over the last few years has been used to make some small acquisitions.

MAJOR ACCOMPLISHMENTS & CHALLENGES IN 2007:

1.) to certify the Land Department's forest management practices under two internationally recognized forest management standards e.g. Sustainable Forestry Initiative & Forest Stewardship Council. 2) to begin to realize progress in the review and approval of various trail proposals. 3.) to designate various trail systems while maintaining the integrity of the natural resources 4.) Communicating with loggers regarding the turning back of timber sale contracts which in all likelihood will never be cut due to the high stumpage price and then expedite the resale of the tracts.

MAJOR OBJECTIVES TO BE ACCOMPLISHED IN 2008:

1.) Continue to implement standard operating procedures in support of forest certification standards with existing staff 2.) Continued progress towards trail inventory, preliminary use designation, review and approval of trail proposals 3.) Implementing the "limited" forest classification within the Expanded Work Area along with appropriate signage and education 4.) Continued efforts in land asset management by way of land exchanges, easements, acquisitions. 5.) Pursue an eminent domain action in Long Lake Township to provide public access into Russell Lake.

BUDGET HIGHLIGHTS, INCLUDING ANY PROPOSED EXPANSIONS IN 2008:

Fairly standard budgets. No proposed expansions.

CROW WING COUNTY 2008 BUDGET NARRATIVE

DEPARTMENT NAME: Solid Waste

DEPARTMENT DESCRIPTION:

Responsible for coordinating or monitoring planning and design efforts for systems or facilities in relationship with the County's integrated solid waste management program as outlined in the County's Solid Waste Management Plan. Provides technical assistance to cities, townships, organizations, private business and County government in the implementation of the County's integrated solid waste management program which encompasses a broad range of elements; waste reduction, waste education, recycling, yard waste facility, County sanitary landfill, County construction & demolition landfill, closed county landfill, used tires, used electronics, used mattresses, appliances, used oil and lead acid battery program, household hazardous waste and product exchange facility, solid waste ordinances, and unauthorized solid waste disposal.

MAJOR ACCOMPLISHMENTS & CHALLENGES IN 2007:

SCORE:

The annual Recycling Report my office does outlines the accomplishments within the SCORE related programs. From this Report a short listing:

1. First full year for the mattress recovery program.
2. Continue the increase participation in the existing recycling and problem material management programs. One method is to continue the coupon program and assist in the many area cleanup programs.

3. Electronics bill passed and is now State law starting July 1st of 2007, incorporating this into the existing County electronics program.

Landfill:

1. Construction of Cell 4 and pond 4.
2. Finalize the preconstruction aspects of the landfill gas project.
3. Completed repermitting process for both the new landfill and Demolition landfill.
4. Environmental monitoring and surveying 5-year contract reissued.

MAJOR OBJECTIVES TO BE ACCOMPLISHED IN 2008:

SCORE:

1. Continue to expand existing programs.
2. Upgrading solid waste ordinance.
3. Check on potential of ethanol plant in Little Falls utilizing brush that comes into landfill.

Landfill:

1. Construction of active gas system.
2. Under separate contract, gas line to iLevel.
3. Construction of new leachate application area.

BUDGET HIGHLIGHTS, INCLUDING ANY PROPOSED EXPANSIONS IN 2008:

1. New truck to assist in area cleanup events.
2. Purchasing recycling bins and carts for courthouse complex. Effort to increase volume of recycling County accomplishes.
3. Under the Land Services reorganization, one position is being transferred from P&Z to the Solid Waste Department. Funding for this position is scheduled to come from Solid Waste versus General Revenue.

CROW WING COUNTY 2008 BUDGET NARRATIVE

DEPARTMENT NAME: Central Minnesota Community Corrections (CMCC)

DEPARTMENT DESCRIPTION:

CMCC provides correctional Field Services for Aitkin, Crow Wing and Morrison Counties. This includes:

- Educational and/or treatment services
- Diversion programs
- Community work or Sentence-to Service programs
- Court services
- Probation services
- Supervised release services (parole)

The goal of all Field Services is to serve the court and the community by holding the offender accountable to their conditions of probation or release, and offering the client an opportunity to restore the harm done and change their pattern of behavior. Corrections research has identified best-practices for reducing recidivism by promoting change in a client's pattern of thinking. Reducing recidivism is the key to promoting public safety in Field Services.

MAJOR ACCOMPLISHMENTS & CHALLENGES IN 2007:

The 2007-2008 CMCC Comprehensive Plan uses the Balanced Scorecard system of strategic management developed by the Harvard Business School. In this system of management the success of the organization in executing its strategic plan is continually assessed from four interdependent perspectives.

The Financial Perspective: How well do we manage the finances of CMCC?

The 2007 budget is on target and balanced. Financial reserves are at or near State Auditor recommended levels. CMCC operates with the lowest level of county financial support of any CCA jurisdiction in the State.

The Agency Internal Process Perspective: How well do we organize and execute the delivery of our services? CMCC operates with a minimal administrative and supervisory staff compared to our peer organizations. Our probation services are understaffed compared to peer organizations and Department of Corrections standards. Even so, the organization operates a comprehensive sex offender treatment and supervision program. Staff resources are being better targeted to higher risk offenders, due to a newly implemented risk assessment protocol. In the summer of 2007 CMCC will for the first time have all of its operations operating off a single computer server facilitating improved communications, supervision and program evaluation.

The Learning and Growth Perspective: How well do we develop the staff and culture of CMCC? CMCC field services have suffered some from the dominating problems of the now closed Juvenile Center. Supervisors and Administration are currently organizing bimonthly training and staff meetings with agent "groups" (juvenile agents, sex-offender agents, etc.). An agency wide "search and safety" training is planned for the early autumn.

The Public Service Client Perspective: How satisfied are people with our services?

Agents report that relations with their jurisdiction judges and law enforcement agencies have never been better. Board relations have been challenging due to the high percentage of new commissioners serving on the CMCC Boards.

MAJOR OBJECTIVES TO BE ACCOMPLISHED IN 2008:

The 2007- 2008 CMCC Strategic Plan and Outcome Measures as outlined in the CMCC Comprehensive Plan focus on moving the organization closer to the evidence-based standards currently being implemented statewide and nationally.

Evidence-based practices in community corrections are founded on eight principles:

1. Assess the offender's risk and needs using objective measurement of their criminogenic characteristics. Field Services and CMJC must develop or adopt valid assessment instruments to objectively determine the risk level and underlying personality and criminogenic pathology of each client.

2. Base supervision strategies on risk, need, and responsivity.

Most offenders receive a probation-based sanction, not incarceration. To successfully manage the risk these offenders present to the community, research indicates that CMCC should target resources proportional to the risk level of the offender and work to change their individually identified criminogenic characteristics.

3. Skill train offenders using cognitive-behavioral methods.

Research has identified cognitive-behavioral interventions as having the highest rate of success in offender populations. These methods provide offenders with new strategies for changing their thinking about, and emotional responses to, situations encountered in everyday life.

4. Enhance intrinsic motivation.

Research indicates that offenders cannot be forced to change; rather they need to see the value of changing and accept pro-social change as beneficial. CMCC should adopt the interview techniques and methods of interacting with offenders that have been shown effective in fostering this change in offender values.

5. Increase positive reinforcement.

CMCC services should emphasize reinforcing changing behavior and not just monitor for compliance of court orders.

6. Engage ongoing support in the offender's natural community.

Public safety staff can never influence an individual as much as the individual's own family and friends. CMCC strategies should involve the offender's own natural community to reinforce the process of change.

7. Structure the supervision processes and practices to allow for measurement of compliance with the supervision plan.

The supervision strategy for each offender should be written and measurable allowing the staff and the offender to plan for change and assess progress toward each change objective.

8. Evaluate the success of the intervention in reducing recidivism.

CMCC must implement systems to measure the level of success its strategies are having on managing the risks of recidivism in the community.

BUDGET HIGHLIGHTS, INCLUDING ANY PROPOSED EXPANSIONS IN 2008:

The 2008 CMCC budget highlights include:

- a. Fund 21 will remain open, even though CMJC is closed, to record unemployment costs. It is expected that Fund 21 will be closed at the end of 2008.
- b. After several years of static State support for Field Service the State has boosted the CCA Subsidy for the biennium and has provided additional Caseload Reduction Grant funds.
- c. One new adult agent is added to the probation office in Aitkin. This is largely paid by the new Caseload Reduction allocation from the State.
- d. One Programming Specialist position is created to provide training and assistance to agents particularly in the area of cognitive-behavioral methods. This position will also provide training to families, thereby coordinating agent supervision with parents and caregivers. This position is paid by a Juvenile Accountability Block Grant and State subsidy funds.
- e. CMCC will begin to have independent legal counsel.
