

Identify specific project, list dimensions. List all standards, and conditions (if applicable i.e. Variance)

Example: To construct a 25 ft. deep x 100 ft. long recreation area not to exceed 30% of lot width including the following:

1. Intensive vegetation removal within the Shoreland Recreation Area
2. The placement of a sand blanket that is 15'x50' not to exceed 30 cu. Yds.

Maintain erosion control best management practices during and after construction until site is established.
