

South Long Lake Park Features:

- Access to South Long Lake and the Nokasippi River
- Nokasippi River flows from Upper South Long Lake to Lower South Long Lake
- Fishing pier and dam
- Picnic shelter, picnic tables, and barbecue grills
- Bathroom and parking
- Hiking trail

You are responsible for your own safety! Hiking areas have their own inherent risks and hikers assume complete responsibility for their own safety. Rescue is not a certainty.

- Stay on designated roads and trails.
- Leave an itinerary of where you plan to be with a friend or loved one.
- Take into account the chance for bad weather.
- Know how to identify and what to do about pests such as deer ticks and poison ivy.
- Check and recheck for ticks when you are in tick-infested, wooded areas.
- Do your part—leave the area better than you found it

Hiking safety tips

Report violators and damage.

Please report any damage or persons doing damage to the trails to Crow Wing County.

Contact Crow Wing County Land Services at 218-824-1010 or you can email us at: landservices@crowwing.gov

Ecological impact

Be aware of, and report any invasive species sightings. Clean off and dry out your boots after leaving the forest. This stops the spread of invasive species.

Watch for trail signs.

Enjoy your hike along the various trails and watch for interpretive signs with information about wildlife management, and forest management.

Park Open: May–November

Welcome to one of the many county parks and hiking trails in Crow Wing County. We're glad you are out enjoying the trails. Here is some helpful information about the South Long Lake area, and for navigating trails and protecting them for other users. Take a quick read and enjoy the park!

Welcome to the South Long Lake Park

Read and understand all park regulations.

Don't forget to check for Ticks!

Deer ticks, also known as blacklegged ticks, are just one of thirteen known tick species in Minnesota. They are most common in hardwood forests and wooded and brushy areas. Deer ticks are potential carriers of Lyme disease.

Check and re-check for ticks when you are in tick-infested wooded areas.

PROTECT OUR TRAILS!
